**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Southwest winds strengthening over higher ridges/summits. Sunburn and dehydration will continue to be the main hazards for hill walkers.

Forecast for Sunday 10 Sep 2023
Weather: Mainly dry morning with some sunshine. Clouds thickening in afternoon with scattered showers breaking out, some heavy and possibly thundery.

Maximum wind: Light southwest winds, average speeds of 10 to 15mph.

Chance of cloud-free hill tops above 800m: 70%

Low Cloud and visibility: Rather misty conditions at first, otherwise good visibility with clouds above about 700 to 800m and the main canopy of cloud above the summits. Brief interruptions to poor visibility as heavier showers pass by with clouds lower down the hills.

Temperature: **Glens:** 12 Celsius rising to 23 Celsius.
At 800m: 15 Celsius.
Freezing level: Well above the tops.
